Gilat's VSATs Selected by Bharti and Tata's Nelco for India's Ministry of Finance National ATM Initiative

- Expected to provide up to 30,000 ATM sites with secured broadband satellite-based communications -

Petah Tikva, Israel, 7 February, 2013 -- Gilat Satellite Networks Ltd. (NASDAQ: GILT), a worldwide leader in satellite networking technology, solutions and services, today announced it has been selected by Nelco Ltd., a division of the TATA Group, and Bharti Airtel Ltd., to provide secured satellite-based communications as the primary mode of connectivity for up to 30,000 ATM sites across India.

The contract is part of India's Ministry of Finance ATM initiative aimed at making financial services accessible to a greater audience across India, regardless of income, with the deployment of thousands of new ATM sites nationwide.

Under the agreement, Gilat will provide the VSATs to the selected service providers who will deploy the first 15,000 SkyEdge satellite broadband terminals in 2013, with expected growth of up to 30,000 sites by middle of 2014.

"With over 100,000 satellite terminals in operation across India today through various licensed service providers, Gilat is a veteran provider of satellite broadband communications in the country, and a leading provider of VSAT solutions for the local banking and finance industry," said Stephane Palomba, Regional VP of Asia, Gilat Satellite Networks. "Our SkyEdge solution has gained the local market's vote of confidence for offering uncontended reliability, security and cost efficiency – all of which are critical components of a robust banking infrastructure. We look forward to working with Bharti and Nelco on this high profile initiative.

Gilat's unique 'embedded Dual IPsec' functionality enables simultaneous processing over two 'end-to-end' IPsec tunnels allowing for the automatic switching of transaction data to disaster recovery sites, without any need for external equipment and without additional capital expense.

About Gilat

Gilat Satellite Networks Ltd (NASDAQ, TASE: GILT) is a leading provider of products and services for satellite-based broadband communications. Gilat develops and markets a wide range of high-performance satellite ground segment equipment and VSATs, with an increasing focus on the consumer and Ka-band market. In addition, Gilat enables mobile SOTM (Satellite-on-the-Move) solutions providing low-profile antennas, next generation solid-state power amplifiers and modems. Gilat also provides managed network and satellite-based services for rural telephony and Internet access via its subsidiaries in the United States, Peru and Colombia.

With over 25 years of experience, and over a million products shipped to more than 85 countries, Gilat has provided enterprises, service providers and operators with efficient and reliable satellite-based connectivity solutions, including cellular backhaul, banking, retail, e-government and rural communication networks. Gilat also enables leading defense, public security and news organizations to implement advanced, on-the-move tactical communications on board their land, air and sea fleets using Gilat's high-performance SOTM solutions.
