Gilat is partnering with Leading China Satellite Communication Companies for their first Ka HTS multi-spot-beam satellite

SkyEdge II-c to power first Ka-band HTS satellite communications network to deliver fixed and mobile services across China

Petah Tikva, Israel, August 12, 2015 -- Gilat Satellite Networks Ltd. (NASDAQ, TASE: GILT), a worldwide leader in satellite networking technology, solutions and services, announced today that it is entering into a unique partnership with Space Star Technology Co Ltd (SSTC), in which SSTC and Gilat will jointly provide the satellite communications network for ChinaSat 16, the first Ka HTS multi-spot-beam satellite in China.

The partnership agreement stipulates that multiple network segments and VSAT terminals will be delivered using Gilat's SkyEdge II-c technology.

The SkyEdge II-c network will enable high speed fixed and mobile services to be delivered over satellite, including airborne, maritime, train and land mobility throughout China.

Additionally, Gilat will share its expertise and experience with SSTC to develop satellite-enabled applications to improve the quality of life for citizens in the country's remote locations.

"We are excited about the opportunity to develop a long-term and sustainable relationship with our new partners in China and look forward to the success of their HTS multi-satellite program", said Dov Baharav, Gilat's Interim CEO and Chairman of the Board.

"This agreement presents a momentous opportunity for Gilat and is a strong vindication of our technology leadership. We also believe it represents an important opportunity for China to be at the forefront of next-generation fixed and mobile satellite services, while providing consumers, businesses and government organizations across China with valuable high-speed broadband services".

About Space Star Technology Co. Ltd.

Space Star Technology Co. Ltd. (Space Star), a subsidiary of China Aerospace Science and Technology Corporation, is a leading designer, manufacturer and supplier of satellite communications antenna equipment and microwave components in China. Space Star products and expertise have been adopted in key national projects such as Petrochina's East-West pipeline and state radio's satellite interference positioning. Space Star products have been exported to England, Australia, the US, Russia, India, Singapore, Nepal, Japan, Saudi Arabia and other countries in the Middle East Area and Africa.

About Gilat

Gilat Satellite Networks Ltd (NASDAQ, TASE: GILT) is a leading provider of products and services for satellite-based broadband communications. Gilat develops and markets a wide range of high-performance satellite ground segment equipment and VSATs, with an increasing focus on the consumer and Ka-band market. In addition, Gilat enables mobile SOTM (Satellite-on-the-Move) solutions providing low-profile antennas, next generation solid-state power

amplifiers and modems. Gilat also provides managed network and satellite-based services for rural telephony and Internet access via its subsidiaries in Peru and Colombia.

With over 25 years of experience, and over a million products shipped to more than 90 countries, Gilat has provided enterprises, service providers and operators with efficient and reliable satellite-based connectivity solutions, including cellular backhaul, banking, retail, e-government and rural communication networks. Gilat also enables leading defense, public security and news organizations to implement advanced, on-the-move tactical communications on board their land, air and sea fleets using Gilat's high-performance SOTM solutions. Gilat controlling shareholders are the FIMI Private Equity Funds. For more information, please visit us at www.gilat.com
