Aharon Mullokandov

Senior Vice President Research & Development

Aharon Mullokandov serves as Gilat's Senior Vice President, R&D.

Prior to joining Gilat, Mr. Aharon Mullokandov served as Vice President Global R&D Cyber Security at Allot Communications (Nasdaq — ALLT). In this role, he built and managed the global R&D of the Cyber Security BU, including 180 engineers and 4 different product lines, across a wide range of multi-disciplinary technologies. Aharon previously served as Assistance Vice President, Global Program Development.

Before joining Allot, Aharon was the Head of Global Customer Service at Here Mobility. Prior to this position, Aharon served as the Head of the Drive Division at Servotronix Motion Control. Aharon began his career at Gilat, serving in many different positions over a 9-year period including Assistance Vice President, Global Cloud Operations Services, R&D Director, Global QA and system engineering.

Aharon holds a Bachelor of Science (BSc) in Electrical, Electronics and Communications Engineering from Ariel University.
