Gilat Receives First Ka-Band VSAT Order From One Of Europe's Largest Satellite Broadband ISPs As Part Of SES Broadband Services' Consumer Rollout

-ISP Will Be Targeting European Households Who Lack High Quality DSL Services-

-Initial Order Includes Delivery of Several Thousand Self-Install Customer Premise Equipment (CPE) Kits-

Petah Tikva, Israel, September 6, 2012 -- Gilat Satellite Networks Ltd. (NASDAQ: GILT), a worldwide leader in satellite networking technology, solutions and services, today announced that it has received an order from one of Europe's largest satellite broadband ISPs in support of SES Broadband Services' (SBBS) Ka-band consumer service rollout. The initial order includes the delivery of several thousand self-install customer premise equipment (CPE) Kits.

Gilat's SkyEdge II-c award winning "Aries" VSAT provides up to 20Mbps HTTP on download and 2Mbps on upload. With Aries, European households will be able to benefit from considerably faster speeds for satellite consumer services, enabling internet, video and VOIP services. Aries was designed from the bottom up for the consumer market, with quick and intuitive self-installation features and automatic service activation.

"We are very excited to have received this order for our Ka-band terminals to support SBBS and look forward to a successful rollout," said Erez Antebi, CEO of Gilat. "Ka-band offers unprecedented capabilities in the satellite industry – very high data rates at attractive prices."

"The potential in Europe for these services is very large, and we are proud to be part of this initiative," continued Antebi. "We are well positioned to provide the products and support necessary to enable ISPs who are looking to expand their businesses providing satellite based broadband services to consumers and small offices."

About Gilat

Gilat Satellite Networks Ltd (NASDAQ, TASE: GILT) is a leading provider of products and services for satellite-based broadband communications. Gilat develops and markets a wide range of high-performance satellite ground segment equipment and VSATs, with an increasing focus on the consumer and Ka-band market. In addition, Gilat enables mobile SOTM (Satellite-on-the-Move) solutions providing low-profile antennas, next generation solid-state power amplifiers and modems. Gilat also provides managed network and satellite-based services for rural telephony and Internet access via its subsidiaries in the United States, Peru and Colombia.

With over 25 years of experience, and over a million products shipped to more than 85 countries, Gilat has provided enterprises, service providers and operators with efficient and reliable satellite-based connectivity solutions, including cellular backhaul, banking, retail, e-government and rural communication networks. Gilat also enables leading defense, public security and news organizations to implement advanced, on-the-move tactical communications on board their land, air and sea fleets using Gilat's high-performance SOTM solutions.
