Gilat Satellite Networks Announces Revised Management Objective Targets for 2013

- Revision reflects lower than previously expected annual results, including lower revenue and earnings results in the second quarter of 2013 compared to the first quarter of 2013

- Second quarter 2013 financial results will be released on Wednesday, August 14, 2013

Petah Tikva, Israel – July 18, 2013 – Gilat Satellite Networks Ltd. (NASDAQ, TASE: GILT), a worldwide leader in satellite networking technology, solutions and services, today announced that it has revised its management objective targets for 2013. Revenue for 2013 is now expected to be between **\$335 million to \$345 million** as compared to the previously stated range of \$350 million to \$360 million and EBITDA is expected to be approximately **7%** as compared to 9%.

The projected revenue and earnings shortfall is primarily due to lower than expected sales in the Defense division related directly to sequester budget cuts and purchasing slowdowns by the U.S. Department of Defense. An additional factor for the shortfall is the Compartel contract which, as reported earlier in the year, ended on March 31, 2013 and was not extended.

“We are targeting defense programs of record that are strategic in nature and as such we remain confident about the long term prospects of our Defense division.” said Erez Antebi, CEO of Gilat Satellite Networks. “We will provide a business overview during our regularly scheduled earnings release and conference call on August 14.”

Second Quarter 2013 Earnings Announcement Schedule

Second quarter 2013 financial results will be released on Wednesday, August 14, 2013.

Webcast

Following the announcement, Erez Antebi, Chief Executive Officer, and Yaniv Reinhold, Chief Financial Officer, will discuss the Company's second quarter 2013 results and participate in a question and answer session:

End: August 16, 2013 at 16:00 GMT / 12:00 EDT / 19:00 IST
Dial-in: US: (888) 782-4291
International: (972) 3-925-5927

About Gilat Satellite Networks Ltd.

Gilat Satellite Networks Ltd (NASDAQ, TASE: GILT) is a leading provider of products and services for satellite-based broadband communications. Gilat develops and markets a wide range of high-performance satellite ground segment equipment and VSATs, with an increasing focus on the consumer and Ka-band market. In addition, Gilat enables mobile SOTM (Satellite-on-the-Move) solutions providing low-profile antennas, next generation solid-state power amplifiers and modems. Gilat also provides managed network and satellite-based services for rural telephony and Internet access via its subsidiaries in the United States, Peru and Colombia.

With over 25 years of experience, and over a million products shipped to more than 85 countries, Gilat has provided enterprises, service providers and operators with efficient and reliable satellite-based connectivity solutions, including cellular backhaul, banking, retail, e-government and rural communication networks. Gilat also enables leading defense, public security and news organizations to implement advanced, on-the-move tactical communications on board their land, air and sea fleets using Gilat's high-performance SOTM solutions.
