

GILAT PRESS RELEASE

Telefónica Global Solutions Selects Gilat to Extend 4G Cellular Coverage for Mobile Operators in Latin America

Petah Tikva, Israel, November 7, 2022 -- Gilat Satellite Networks Ltd. (Nasdaq: GILT, TASE: GILT), a worldwide leader in satellite networking technology, solutions, and services, announced today that Telefónica Global Solutions (TGS) selected Gilat to extend 4G cellular backhaul over satellite for mobile operators serving rural areas in the northern part of Latin America. Within the framework of a multi-year agreement with TGS, Gilat will provide its SkyEdge II-c platform to increase support of the large regional projects.

Gilat is already heavily involved in this region and is providing its 4G cellular backhaul over satellite solution to enable connectivity for millions of people throughout the most remote areas in the region.

Telefónica Global Solutions offers an ecosystem of satellite solutions for different applications and industries, with the highest quality guarantees, to bring communications to challenging environments or address the needs of specific and/or temporary situations.

“It is important for us to provide our customers with excellent service expanding our partnerships and using the best and diversified available technology,” said Gustavo Arditti, Global Director of the Satellite Business Unit at Telefónica Global Solutions. “Gilat met those needs with good spectral efficiency and comprehensive regional support. In this way we continue our multi-service strategy which gives us flexibility to deliver the most suitable solution to each customer and to support our goal to bridge the digital divide.”

“Gilat is honored to have been selected by Telefónica Global Solutions to support the provision of connectivity to customers located in rural areas in the northern part of Latin America,” said Michal Aharonov, Chief Commercial Officer at Gilat. “The network coverage expansion in the region, enabled by using Telefónica's infrastructure, is a testament to Gilat's leadership in cellular backhaul over satellite.”

About Telefónica Global Solutions

About Gilat

Gilat Satellite Networks Ltd. (NASDAQ: GILT, TASE: GILT) is a leading global provider of satellite-based broadband communications.

With over 30 years of experience, we create and deliver deep technology solutions for satellite, ground and new space connectivity and provide comprehensive end-to-end solutions and services, powered by our innovative technology. We believe in the right of all people to be connected and are united in our resolution to provide communication solutions to all reaches of the world.

Delivering high value solutions, our portfolio is comprised of a cloud-based platform and high performance satellite terminals designed to work in harmony with satellite constellations, including Very High Throughput Satellites (VHTS) and Software-Defined Satellites (SDS) in multiple orbits; high performance Satellite On-the-Move (SOTM) antennas; and highly efficient, high-power Solid State Power Amplifiers (SSPA) and Block Upconverters (BUC).

Gilat's comprehensive solutions support multiple applications with a full portfolio of products to address key applications including broadband access, mobility, cellular backhaul, military, government, and enterprise, all while meeting the most stringent service level requirements.
