

GILAT PRESS RELEASE

Gilat Receives Multimillion-Dollar Order for Expansion of Advanced Disaster Response Network in Asia

Gilat expands deployment of VSATs in national initiative to ensure service continuity

Petah Tikva, Israel, May 1, 2023 -- Gilat Satellite Networks Ltd. (Nasdaq: GILT, TASE: GILT), a worldwide leader in satellite networking technology, solutions, and services, announced today that the company received a multimillion-dollar order for VSATs to be used to expand the rollout of an advanced disaster response network in Asia.

Gilat's equipment supports the national initiative in its efforts to expand and strengthen disaster prevention and administration. The network is designed to enable highly secure, bandwidth-efficient voice services, video feeds and multicasts, emergency alerts, mobility services, and data services that support effective disaster response capabilities for governmental bodies, individuals, and first responders.

"Gilat's widely-deployed multi-service satellite communications technology is being used by this national disaster response network to ensure service continuity," said Ron Levin, Chief Commercial Officer at Gilat. "We are proud to empower this nation with very high levels of throughput, quality, and resilience for its advanced network, which is setting a new standard for disaster response."

About Gilat

Gilat Satellite Networks Ltd. (NASDAQ: GILT, TASE: GILT) is a leading global provider of satellite-based broadband communications.

With over 35 years of experience, we create and deliver deep technology solutions for satellite, ground and new space connectivity and provide comprehensive end-to-end solutions and services, powered by our innovative technology. We believe in the right of all people to be connected and are united in our resolution to provide communication solutions to all reaches of the world.

Delivering high value solutions, our portfolio is comprised of a cloud-based platform and high performance satellite terminals designed to work in harmony with satellite constellations, including Very High Throughput Satellites (VHTS) and Software-Defined Satellites (SDS) in multiple orbits; high performance Satellite On-the-Move (SOTM) antennas; and highly efficient, high-power Solid State Power Amplifiers (SSPA) and Block Upconverters (BUC).

Gilat's comprehensive solutions support multiple applications with a full portfolio of products to address key applications including broadband access, mobility, cellular backhaul, military,

government, and enterprise, all while meeting the most stringent service level requirements. For more information, please visit: www.gilat.com
