Adi Sfadia, Gilat's CEO, commented:

"We are deeply saddened by the tragic events of October 7th in Israel. Our thoughts and prayers are with the victims of this horrific attack – the murdered, the hostages, the wounded and their families. We are very proud of our employees' response to this crisis and their dedication to the company during these times. We also want to thank our customers and suppliers and the world community at large for their full-hearted support.

As a strong global company with operation and development centers worldwide, our operations remain unaffected by recent events in Israel. We continue to closely monitor the situation and have implemented relevant measures, and refreshed our business continuity plans to minimize any potential effect, if at all, to our business."

Mr. Sfadia continued, "We are pleased with our results, particularly the continued revenue growth combined with the solid improvement in our profitability. We reported significantly improved profitability including Adjusted EBITDA, demonstrating the operating leverage inherent in our business. The ongoing good performance was due to the continued growing interest in our solutions as well as advancements in the satellite communications space in general."

Mr. Sfadia concluded, "Our strong performance in 2023 to date has generated Adjusted EBITDA of \$27 million in the nine months ended September 30, 2023, which already exceeds the Adjusted EBITDA from the whole of 2022. Given our leading position in the market and the opportunities we see ahead, we look forward to continuing our growth into 2024 and beyond."

Non-GAAP Measures

The attached summary unaudited financial statements were prepared in accordance with U.S. Generally Accepted Accounting Principles (GAAP). To supplement the consolidated financial statements presented in accordance with GAAP, the Company presents non-GAAP presentations of gross profit, operating expenses, operating income, income before taxes on income, net income, adjusted EBITDA, and earnings per share. The adjustments to the Company's GAAP results are made with the intent of providing both management and investors with a more complete understanding of the Company's underlying operational results, trends, and performance. Non-GAAP financial measures mainly exclude, if and when applicable, the effect of non-cash stock-based compensation expenses, amortization of purchased intangibles, amortization of intangible assets related to acquisition transactions, lease incentive amortization, impairment of held for sale asset, income tax effect on adjustments, one-time changes of deferred tax assets, and other operating expenses (income), net.

Adjusted EBITDA is presented to compare the Company's performance to that of prior periods and evaluate the Company's financial and operating results on a consistent basis from period to period. The Company also believes this measure, when viewed in combination with the Company's financial results prepared in accordance with GAAP, provides useful information to investors to evaluate ongoing operating results and trends. Adjusted EBITDA, however, should not be considered as an alternative to operating income or net income for the period and may not be indicative of the historic operating results of the Company; nor is it meant to be predictive of potential future results. Adjusted EBITDA is not a measure of financial performance under GAAP and may not be comparable to other similarly titled measures for other companies. Reconciliation between the Company's net income and adjusted EBITDA is presented in the attached summary financial statements.

Non-GAAP presentations of gross profit, operating expenses, operating income, income before taxes on income, net income, adjusted EBITDA and earnings per share should not be considered in isolation or as a substitute for any of the consolidated statements of operations prepared in accordance with GAAP, or as an indication of Gilat's operating performance or liquidity.
