

Gilat Receives Over \$10M Contract Extension for Cellular Backhaul Services

Connecting over 800 sites and providing high speed connectivity to over 1 million people in rural areas in Peru

Petah Tikva, Israel, July 9th 2024 —Gilat Satellite Networks Ltd. (NASDAQ, TASE: GILT), a worldwide leader in satellite networking technology, solutions, and services, announced today that Gilat received a follow-on 6 year order for over \$10M from Internet Para Todos (IPT) to deliver Cellular Backhaul services across rural areas in Peru.

IPT is a sustainable global collaborative initiative between Telefónica, Meta, IDB Invest and The Latin America Development Bank (CAF) to bridge the digital divide in Latin America under a sustainable model that would allow them to overcome the obstacles of bringing connectivity to rural and geographically complex areas.

Building on previous contracts, Gilat will enhance its 4G Cellular Backhaul services with IPT over terrestrial networks across the 700 sites in six regions that Gilat operates across Peru and 100 new sites in the Peruvian jungle. This improvement will provide access to high-speed terrestrial connectivity to over 1 million more people living in rural areas.

“We are excited to have closed this significant agreement, which will allow us to continue connecting Peruvians in rural areas in a sustainable way” said **Teresa Gomes De Almeida, General Manager of IPT**. “We are very pleased to have found a partner that shares our vision of closing gaps and fostering inclusive development, ensuring that all Peruvians have access to the opportunities offered by connectivity.”

“We are deeply honored to continue our collaboration with IPT in addressing the technical and economic obstacles to bridging the digital divide and boosting connectivity in rural regions,” stated **Arieh Rohrstock, Corporate SVP and General Manager of Gilat Peru**. “This vote of confidence in Gilat’s expertise and abilities to both improve internet speeds and extend coverage to hundreds of rural villages aligns with our vision of the right of all people to be connected.”

About Gilat

Gilat Satellite Networks Ltd. (NASDAQ: GILT, TASE: GILT) is a leading global provider of satellite-based broadband communications. With over 35 years of experience, we create and deliver deep technology solutions for satellite, ground, and new space connectivity and provide comprehensive, secure end-to-end solutions and services for mission-critical operations, powered by our innovative technology. We believe in the right of all people to be connected and are united in our resolution to provide communication solutions to all reaches of the world.

Our portfolio includes a diverse offering to deliver high-value solutions for multiple orbit constellations with very high throughput satellites (VHTS) and software-defined satellites (SDS). Our offering is comprised of a cloud-based platform and high-performance satellite terminals; high-performance Satellite On-the-Move (SOTM) antennas; highly efficient, high-power Solid State Power Amplifiers (SSPA) and Block Upconverters (BUC) and includes integrated ground systems for commercial and defense, field services, network management software, and cybersecurity services.

Gilat’s comprehensive offering supports multiple applications with a full portfolio of products and tailored solutions to address key applications including broadband access, mobility, cellular backhaul, enterprise, defense, aerospace, broadcast, government, and critical infrastructure clients all while meeting the most stringent service level requirements.
