

## Press Release

### **Gilat Awarded Over \$9M for its GEO and NGSO Satellite Communications Solutions**

***Gilat's cutting-edge technologies support growth in global multi-orbit SATCOM Networks***

**Petah Tikva, Israel, July 23, 2024** — Gilat Satellite Networks Ltd. (NASDAQ, TASE: GILT), a worldwide leader in satellite networking technology, solutions, and services, announced today that the Company was awarded over \$9M in cumulative orders from multiple satellite operators to expand their global SATCOM networks utilizing Gilat's innovative and field-proven solutions.

Gilat's solutions will be used to enable a wide range of services and applications over GEO and NGSO, including in-flight connectivity, maritime mobility, cellular backhaul, and enterprise services and more.

"These orders reinforce our position at the forefront of the new space era industry, as satellite operators rely more and more on Gilat to meet the complex demands of multi-

orbit operation,” said Hagay Katz, Chief Product and Marketing Officer at Gilat. “This achievement underscores our commitment to innovation and reliability, enabling us to deliver cutting-edge solutions that address the massive growth and evolving challenges of the satellite communications industry.”

## About Gilat

Gilat Satellite Networks Ltd. (NASDAQ: GILT, TASE: GILT) is a leading global provider of satellite-based broadband communications. With over 35 years of experience, we create and deliver deep technology solutions for satellite, ground, and new space connectivity and provide comprehensive, secure end-to-end solutions and services for mission-critical operations, powered by our innovative technology. We believe in the right of all people to be connected and are united in our resolution to provide communication solutions to all reaches of the world.

Our portfolio includes a diverse offering to deliver high-value solutions for multiple orbit constellations with very high throughput satellites (VHTS) and software-defined satellites (SDS). Our offering is comprised of a cloud-based platform and high-performance satellite terminals; high-performance Satellite On-the-Move (SOTM) antennas; highly efficient, high-power Solid State Power Amplifiers (SSPA) and Block Upconverters (BUC) and includes integrated ground systems for commercial and defense, field services, network management software, and cybersecurity services.

Gilat’s comprehensive offering supports multiple applications with a full portfolio of products and tailored solutions to address key applications including broadband access, mobility, cellular backhaul, enterprise, defense, aerospace, broadcast, government, and critical infrastructure clients all while meeting the most stringent service level requirements.
