

Press Release

Gilat Secures Approximately \$15 Million in Orders from Leading Satellite Operators for GEO, MEO and LEO Constellations

The orders demonstrate the company's wide state-of-the-art ground segment portfolio

Petah Tikva, Israel, October 15, 2024 — Gilat Satellite Networks Ltd. (Nasdaq: GILT, TASE: GILT), a worldwide leader in satellite networking technology, solutions, and services, announced today that it has been awarded approximately \$15 million in orders from several major satellite operators for its advanced satellite communications solutions for GEO, MEO and LEO constellations. The orders are expected to be delivered in several deliveries over the upcoming 18 months.

These new orders underscore the strong, ongoing partnerships Gilat has developed with key industry players, reinforcing the company's position as a trusted provider of cutting-edge satellite technology. Gilat's solutions are critical in enabling a broad range of connectivity and enterprise services across the globe.

"We are witnessing continuous demand for our innovative satellite communications solutions, as operators continue to expand their networks to meet the increasing needs of users worldwide," said **Hagay Katz Chief Product and Marketing Officer**. "Our

portfolio ensures future-ready connectivity, serving diverse markets and applications with unparalleled reliability and reach.”

About Gilat

Gilat Satellite Networks Ltd. (NASDAQ: GILT, TASE: GILT) is a leading global provider of satellite-based broadband communications. With over 35 years of experience, we create and deliver deep technology solutions for satellite, ground, and new space connectivity and provide comprehensive, secure end-to-end solutions and services for mission-critical operations, powered by our innovative technology. We believe in the right of all people to be connected and are united in our resolution to provide communication solutions to all reaches of the world.

Our portfolio includes a diverse offering to deliver high-value solutions for multiple orbit constellations with very high throughput satellites (VHTS) and software-defined satellites (SDS). Our offering is comprised of a cloud-based platform and high-performance satellite terminals; high-performance Satellite On-the-Move (SOTM) antennas; highly efficient, high-power Solid State Power Amplifiers (SSPA) and Block Upconverters (BUC) and includes integrated ground systems for commercial and defense, field services, network management software, and cybersecurity services.

Gilat’s comprehensive offering supports multiple applications with a full portfolio of products and tailored solutions to address key applications including broadband access, mobility, cellular backhaul, enterprise, defense, aerospace, broadcast, government, and critical infrastructure clients all while meeting the most stringent service level requirements.
