

Gilat Received Over \$4 Million Order from the US Department of Defense

Gilat to provide DKET 3421 terminals for easy-to-deploy transportable satcom network hubs

Petah Tikva, Israel, October 28, 2024 — Gilat Satellite Networks Ltd. (Nasdaq: GILT, TASE: GILT), a worldwide leader in satellite networking technology, solutions and services, announced today that the US Department of Defense awarded another contract for more than \$4 million to Gilat's US-based subsidiary, DataPath, for DKET 3421 terminals, portable satcom hubs that provide the flexibility, capacity, connectivity, and control needed to ensure mission success anywhere in the world. The orders are expected to be delivered during the first half of 2025.

The DKET 3421 is an innovative solution to customers' needs for a high-quality, reliable terminal for mission-critical communications. The field-proven DKET 3421 terminal supports multi-carrier operations with a scalable modem architecture (up to 32 modems). Weighing under 5000 lbs. with a reduced footprint, the DKET 3421 can be easily moved by a forklift. Deploying in less than three hours, the DKET 3421 provides a satellite network hub in the form of a single-skid with the flexibility to leverage available satellite assets.

“We’re excited to receive another order for our innovative DKET 3421 from our valued military customer. This order highlights the strong trust in our company and our proven ability to deliver mission-critical solutions that meet demanding requirements,” said **Nicole Robinson, President of DataPath**. “It also demonstrates once again our ability to provide reliable, highly portable, and high-performance network hubs to address our customers' evolving needs.”

About Gilat

Gilat Satellite Networks Ltd. (NASDAQ: GILT, TASE: GILT) is a leading global provider of satellite-based broadband communications. With over 35 years of experience, we create and deliver deep technology solutions for satellite, ground, and new space connectivity and provide comprehensive, secure end-to-end solutions and services for mission-critical operations, powered by our innovative technology. We believe in the right of all people to be connected and are united in our resolution to provide communication solutions to all reaches of the world.

Our portfolio includes a diverse offering to deliver high-value solutions for multiple orbit constellations with very high throughput satellites (VHTS) and software-defined satellites (SDS). Our offering is comprised of a cloud-based platform and high-performance satellite terminals; high-performance Satellite On-the-Move (SOTM) antennas; highly efficient, high-power Solid State Power Amplifiers (SSPA) and Block Upconverters (BUC) and includes integrated ground systems for commercial and defense, field services, network management software, and cybersecurity services.

Gilat’s comprehensive offering supports multiple applications with a full portfolio of products and tailored solutions to address key applications including broadband access, mobility, cellular backhaul, enterprise, defense, aerospace, broadcast, government, and critical infrastructure clients all while meeting the most stringent service level requirements.
