

Gilat Receives \$9 Million in Orders for Multi-Orbit SkyEdge Platforms

Gilat's SkyEdge IV and SkyEdge II-c Platforms are used to deliver the widest range of connectivity applications

Petah Tikva, Israel, January 6, 2025 — Gilat Satellite Networks Ltd. (NASDAQ, TASE: GILT), a worldwide leader in satellite networking technology, solutions, and services, announced today that the Company has received \$9 million in orders from major satellite operators. The orders are for its advanced satellite communications platforms, SkyEdge IV and SkyEdge II-c equipment and services. Delivery is scheduled within the next 12 months.

The world's leading satellite operators use Gilat's cutting-edge SkyEdge technology to provide unparalleled connectivity across multiple satellite constellations. SkyEdge platforms are designed to deliver robust, high-performance satellite communications for a variety of applications, including maritime, cellular backhaul and enterprise solutions.

“We are excited to support satellite operators around the world and being a leading supplier for multi-orbit solutions,” said **Hagay Katz, Chief Product and Marketing Officer at Gilat**. “Our SkyEdge platforms were designed to meet the demands of next-generation networks, ensuring seamless multi-orbit integration. These orders underscore our dedication to innovation and our ability to empower satellite operators with the flexibility and scalability required to address diverse market needs.”

About Gilat

Gilat Satellite Networks Ltd. (NASDAQ: GILT, TASE: GILT) is a leading global provider of satellite-based broadband communications. With over 35 years of experience, we create and deliver deep technology solutions for satellite, ground, and new space connectivity and provide comprehensive, secure end-to-end solutions and services for mission-critical operations, powered by our innovative technology. We believe in the right of all people to be connected and are united in our resolution to provide communication solutions to all reaches of the world.

Our portfolio includes a diverse offering to deliver high-value solutions for multiple orbit constellations with very high throughput satellites (VHTS) and software-defined satellites (SDS). Our offering is comprised of a cloud-based platform and high-performance satellite terminals; high-performance Satellite On-the-Move (SOTM) antennas; highly efficient, high-power Solid State Power Amplifiers (SSPA) and Block Upconverters (BUC) and includes integrated ground systems for commercial and defense, field services, network management software, and cybersecurity services.

Gilat’s comprehensive offering supports multiple applications with a full portfolio of products and tailored solutions to address key applications including broadband access, mobility, cellular backhaul, enterprise, defense, aerospace, broadcast, government, and critical infrastructure clients all while meeting the most stringent service level requirements.
