

Gilat Receives \$6 Million Defense Contract to Provide Military Communications solutions in Asia-Pacific

Advanced Satellite Solution to Support Secure and Resilient Connectivity for Fixed and Mobility Defense Operations

Petah Tikva, Israel, March 05, 2025 — Gilat Satellite Networks Ltd. (NASDAQ: GILT, TASE: GILT), a worldwide leader in satellite networking technology, solutions and services, today announced its Defense Division secured an order valued at \$6 million to provide the SkyEdge II-c platform to a military organization in the Asia-Pacific region. The advanced satellite communications solution will support both fixed and mobility sites, ensuring secure and reliable connectivity for critical defense operations with enhanced air interface cyber security. Delivery is expected over the next 3 months.

Gilat's SkyEdge II-c platform is designed to meet the demanding requirements of military communications, providing high resilience, efficiency, and robust security for mission-critical applications. This contract underscores the confidence in Gilat's field-proven technology and the company's long-standing expertise in delivering advanced satellite solutions for defense organizations worldwide.

"We continue expanding our operations in the defense market both in and out of the US and are proud to support the growing needs of military forces in the Asia-Pacific region with our state-of-the-art satellite communications technology," said **Gilad Landsberg, President of Gilat Defense**. "This contract reaffirms our position as a trusted provider of secure and resilient SATCOM solutions, enabling seamless operations across diverse and challenging environments."

About Gilat

Gilat Satellite Networks Ltd. (NASDAQ: GILT, TASE: GILT) is a leading global provider of satellite-based broadband communications. With over 35 years of experience, we develop and deliver deep technology solutions for satellite, ground, and new space connectivity, offering next-generation solutions and services for critical connectivity across commercial and defense applications. We believe in the right of all people to be connected and are united in our resolution to provide communication solutions to all reaches of the world.

Together with our wholly owned subsidiaries—Gilat Wavestream, Gilat DataPath, and Gilat Stellar Blu—we offer integrated, high-value solutions supporting multi-orbit constellations, Very High Throughput Satellites (VHTS), and Software-Defined Satellites (SDS) via our Commercial and Defense Divisions. Our comprehensive portfolio is comprised of a cloud-based platform and modems; high-performance satellite terminals; advanced Satellite On-the-Move (SOTM) antennas and ESAs; highly efficient, high-power Solid State Power Amplifiers (SSPA) and Block Upconverters (BUC) and includes integrated ground systems for commercial and defense markets, field services, network management software, and cybersecurity services.

Gilat's products and tailored solutions support multiple applications including government and defense, IFC and mobility, broadband access, cellular backhaul, enterprise, aerospace, broadcast, and critical infrastructure clients all while meeting the most stringent service level requirements.
